2002 Church Growth Consultant Directory

The 2002 Church Growth Consultant Directory is a listing of individuals and organizations that identify to some extent with the Church Growth Movement (CGM). The Church Growth Factor listed under each consulting ministry gives an indication of commitment to the CGM as determined by each organization. A "5" indicates an extremely high identification with the CGM, while a "1" indicates an extremely low identification with the CGM.

The Journal of the American Society for Church Growth makes no guarantees regarding the services of the listed organizations. This directory is simply a resource for those interested in obtaining the services of a church consultant.

The American Society for Church Growth

What is the ASCG?

The American Society for Church Growth is a professional association of Christian leaders worldwide whose ministry activities are based on the basic and key principles of church growth as originally developed by the late Donald McGavran.

Who Can Join the ASCG?

ASCG membership is open to all who wish a professional affiliation with colleagues in the field. It includes theoreticians, such as professors of church growth, and practitioners, such as pastors, denominational executives, parachurch leaders, and consultants. Some members specialize in domestic or mono-cultural church growth, while others are cross-culturally oriented.

Why Join the ASCG?

The ASCG provides a forum for maximum exposure to leaders, ministries, and resources on the cutting edge of the Church Growth Movement.

The Annual meeting provides the opportunity for research updates and information on new resources and ministry developments, as well as fellowship and encouragement from colleagues in church growth. Membership in ASCG includes a subscription to *Strategies for Today's Leaders* magazine and the *Journal of American Church Growth*.
